Index

A

Age, diet and strain effects on response of rats to *Cycas circinalis* ingestion, 115.

AHRENS, RICHARD A., JAMES E. WILSON, JR. AND MADELYN WOMACK. Utilization of calories and nitrogen by rats fed diets containing purified casein versus a mixture of amino acids simulating casein, 219.

Alcohol ingestion, prolonged, and ICDH, SDH and GDH in livers of rats, 157.

ALLAWAY, W. H., D. P. MOORE, J. E. OLDFIELD AND O. H. MUTH. Movement of physiological levels of selenium from soils through plants to animals, 411.

Amino acid(s) absorption from small intestine of domestic fowl, 359.

— — composition of elastin from aortic tissue of copper-deficient chicks, 9.

— —, dietary, deficiencies and excesses, use of free amino acid concentrations in blood plasma of chicks to detect, 75.

— —, free, concentrations, use in blood plasma of chicks to detect deficiencies and excesses of dietary amino acids, 75.

— — mixture simulating casein vs. purified casein in diets, utilization of calories and nitrogen by rats, 219.

— —, plasma, levels of men fed diets differing in protein content; valine-deficient diets, 239.

— —, qualitative needs of adult swine for maintenance, 382.

— —, quantitative evaluation of needs of adult swine for maintenance, 391.

— — requirements of grain beetles, 176.

Ascorbic acid and dehydroascorbic acid in guinea pigs and rats, 338.

Asparagine, dietary requirement, and its metabolism in rats, 143.

B

BAKER, D., D. BECKER, H. NORTON, A. JENSEN AND B. HARMON. Quantitative evaluation of the threonine, isoleucine, valine and phenylalanine needs of adult swine for maintenance, 391.

BAKER, D. H., D. BECKER, H. NORTON, A. JENSEN AND B. HARMON. Some qualitative amino acid needs of adult swine for maintenance, 382.

BALCONI, I. R., AND J. G. LECCE. Intestinal absorption of homologous lactic dehydrogenase isoenzymes by the neonatal pig, 233.

BAUMANN, C. A. See Ganther, H. E., 55.

BAUMANN, C. A. See Hopkins, L. L., Jr., 61.

BECKER, D. See Baker, D., 391.

BECKER, D. See Baker, D. H., 382.

BECKER, W. M. See Heth, D. A., 331.

Beetle(s), Confused Flour, *Tribolium confusum* (Duval), mineral requirements, 181.

—, grain, amino acid requirements, 176.

Behavior, learning, effect of biotin deficiency in rats, 427.

BELL, M. C. See Berry, R. K., 284.

BENNETT, MILDRED J., AND EDMUND COON. Mellituria and postprandial blood sugar curves in dogs after the ingestion of various carbohydrates with the diet, 163.

BENTON, D. A. See Breuer, L. H., Jr., 143.

BERRY, R. K., M. C. BELL AND P. L. WRIGHT. Influence of dietary calcium, zinc, and oil upon the in vitro uptake of zinc-65 by porcine blood cells, 284.

BHAGAVAN, H. N. See Stewart, C. N., 427.

BIERENBAUM, M. L. See Fleischman, A. I., 255.

Biotin deficiency, effect on escape and avoidance learning in rats, 427.

BIRD, D. W. See O'Dell, B. L., 9.

BIRD, D. W. See Savage, J. E., 15.

Blood plasma free amino acid concentrations of chicks, use to detect deficiencies and excesses of dietary amino acids, 75.

— sugar curves, postprandial, and mellituria in dogs after ingestion of various carbohydrates with diet, 163.

BOUCHARD, P. See Ostwald, R., 303.

BRAMBILA, SERGIO, AND FREDRIC W. HILL. Comparison of neutral fat and free fatty acids in high lipid-low carbohydrate diets for the growing chicken, 84.

BREUER, L. H., JR., R. G. WARNER, D. A. BENTON AND J. K. LOOSLI. Dietary requirement for asparagine and its metabolism in rats, 143.

BROWN, R. R. See Vivian, Virginia M., 93.

1,3-Butanediol, distribution of lipids in rats fed, 215.

C

Cadmium, effect on absorption and distribution of ^{64}Cu in rats, 125.

Calcium, dietary, effects on lipid metabolism in mature male rats fed beef tallow, 255.

—, phosphorus and zinc, effect on zinc-65 absorption and turnover in rats fed semipurified diets, 331.

—, zinc and oil, dietary, effect on in vitro uptake of zinc-65 by porcine blood cells, 284.

Calorie(s) utilization by rats fed diets containing purified casein vs. an amino acid mixture simulating casein, 219.

CAMPBELL, M. E., O. MICKELSEN, M. G. YANG, G. L. LAQUEUR AND J. C. KERESZTESY. Effects of strain, age and diet on the response of rats to the ingestion of *Cycas circinalis*, 115.

Carbohydrate ingestion with diet, mellituria and postprandial blood sugar curves in dogs after, 163.

Caries, comparative production of lesions in occlusal sulci and on smooth surfaces, in rats, 419.

Casein, purified vs. amino acid mixture simulating casein in diets, utilization of calories and nitrogen by rats, 219.

Chicken(s), absorption of amino acids from small intestine of, 359.

—, a chemically defined liquid diet for the chick, 131.
—, biliary secretion of metabolites of retinol and retinoic acid in the chick, 137.
—, digestibility of unheated soybean meal for laying hens, 187.
—, effect of intestinal damage produced by *Eimeria necatrix* infection in chicks upon absorption of orally administered zinc-65, 261.
—, growing, comparison of neutral fat and free fatty acids in high lipid-low carbohydrate diets, 84.
—, rachitogenic activity of isolated soy protein for chicks, 249.
—, relationship of soybean fractions and a crystalline soybean trypsin inhibitor to effects of feeding unheated soybean meal, 100.
—, use of free amino acid concentrations in blood plasma to detect deficiencies and excesses of dietary amino acids, 75.
Cholesterol, blood, lowering effects of dietary calcium in rats fed beef tallow, 255.
—, changes in fatty acid composition in liver lipid fractions of pyridoxine-deficient rats fed, 193.
— -depressing effect of pectin in the cholesterol-fed rat, mechanism of, 209.
—, serum, levels in the rat and metabolism of polyunsaturated fatty acids, 111.
Choline and thymine synthesis, and vitamin B_{12}, in the chick, 151.
— deficiency, chronic ethanol ingestion, and liver enzyme changes in rats, 291.
Chromium deficiency in rats — a syndrome simulating diabetes mellitus with retarded growth, 439.
CLARK, A. J. See Swendseid, Marian E., 239.
CLAWSON, A. J. See Sharma, M. P., 434.
COON, EDMUND. See Bennett, Mildred J., 163.
Copper deficiency and lathyrism in turkey poults, 15.
— -deficient chicks, composition of aortic tissue from, 9.
—, radioactive, effects of zinc, cadmium, silver and mercury on absorption and distribution in rats, 125.
COURSIN, DAVID B. See Herr, Nicholas G., 273.
COURSIN, D. B. See Stewart, C. N., 427.
Cyanocobalamin, labeled, metabolic fate in tryptophan-deficient rats, 33.
Cycas circinalis ingestion, effects of strain, age and diet on response of rats to, 115.
Cystine requirements of young guinea pigs, 397.

D

DAJANI, RASHID M., AND CHAKE KOUYOUMJIAN. A study of some enzyme systems in livers of rats after prolonged ingestion of alcohol, 157.
DAKSHINAMURTI, K. See Stewart, C. N., 427.
DAYTON, PETER G., MARCELLETTE MCMILLAN SNELL AND JAMES M. PEREL. Ascorbic and dehydroascorbic acids in guinea pigs and rats, 338.
DEAN, W. F., AND H. M. SCOTT. Use of free amino acid concentrations in blood plasma of chicks to detect deficiencies and excesses of dietary amino acids, 75.
Dehydroascorbic and ascorbic acids in guinea pigs and rats, 338.
Deoxypyridoxine, effect on amount of pyridoxal phosphate in livers and leukocytes of rats and on leukocyte number, size and type, 51.
DEYOE, C. W. See Waggle, Doyle, 370.
Diabetes mellitus, with retarded growth, chromium deficiency in rats — a syndrome simulating, 439.
Diet(s), age and strain effects on response of rats to *Cycas circinalis* ingestion, 115.
—, high lipid-low carbohydrate for growing chickens, comparison of neutral fat and free fatty acids in, 84.
—, liquid, chemically defined for the chick, 131.
—, low protein, effect on ability of adult rat to recover from sublethal dose of irradiation, 202.
—, low tryptophan, supplemented with niacin consumed by young women — tryptophan and niacin metabolism, 93.
— producing carious lesions in rats, 419.
—, purified casein vs. mixture of amino acids simulating casein, utilization of calories and nitrogen by rats, 219.
—, valine-deficient; plasma amino acid levels of men fed diets differing in protein content, 239.
Digestibility of unheated soybean meal for laying hens, 187.
Dog(s), melliturla and postprandial blood sugar curves after ingestion of various carbohydrates with diet, 163.
—, young and old, determination of optimal dietary protein requirements, 66.
DUNKELGOD, K. E. See Waibel, P. E., 131.
DYMSZA, H. A. See Mehlman, M. A., 215.

E

EFA-deficient swine, fatty acid composition of testicular tissue, 171.
Eimeria necatrix infection in chicks, effect of intestinal damage upon absorption of orally administered zinc-65, 261.
Enzyme system studies in livers of rats after prolonged ingestion of alcohol, 157.
Estradiol and testosterone, effect on metabolism of linoleic acid in essential fatty acid-deficient rats, 303.
Ethanol, chronic ingestion, effect on liver enzyme changes induced by thiamine, riboflavin, pyridoxine or choline deficiency, in rats, 291.

F

Fat(s), calcium and zinc, dietary, effect on in vitro uptake of zinc-65 by porcine blood cells, 284.
—, neutral, comparison with free fatty acids in high lipid-low carbohydrate diets for the growing chicken, 84.
Fatty acid(s) changes in composition in liver lipid fractions of pyridoxine-deficient rats fed cholesterol, 193.
— — composition of testicular tissue from EFA-deficient swine, 171.
— — (essential)-deficient rats, effect of estradiol and testosterone on metabolism of linoleic acid, 303.

— —, free, comparison with neutral fat in high lipid-low carbohydrate diets for the growing chicken, 84.
— —, polyunsaturated, metabolism and serum cholesterol levels in the rat, 111.
— —, polyunsaturated, metabolism in the rat, oleic and linoleic acid interaction, 26.
— — unsaturation, hypocholesterolemic effects induced in the rat by specific types of, 351.
FIGUEROA, WILLIAM S. See Swendseid, Marian E., 239.
